OVERVIEW

New boiler installation

We are a Barnet-based heating company installing new and replacement boilers and central heating across London and Greater London. Most of the survey work is done up front from your answers and guided photos, so you get a firm price without waiting for a sales visit.

We mainly fit gas boilers. If your home runs on oil, call us and we will talk it through. For commercial buildings we also install, repair and maintain commercial boilers and heating systems, priced after a site survey.

A price you can plan around

An engineer reviews your answers and photos before you see a number, so the quote is a clear, itemised fixed price.

The right boiler for your home

Combi, system or regular: we match the boiler to your bathrooms, hot water use and existing set-up.

No sales visit to wait for

Guided photos from your phone replace the usual first visit. If anything is unclear, we ask rather than guess.

Local engineers

Based in Barnet, North London, and installing across London. Servicing and repairs are available afterwards.

What the quote covers

- Your current boiler type and where it sits
- Where the flue comes out
- Bedrooms, bathrooms and radiators
- Photos of the boiler, flue, pipework and gas meter
- Option to move from a cylinder to a combi, after a water pressure check
- A clear, itemised fixed price

Combi, system or regular?

Combi: hot water straight from the mains, no cylinder or loft tanks. Suits most flats and small to medium homes. **System**: heats a hot water cylinder so several taps and showers can run at once. Suits larger homes with more than one bathroom. **Regular**: works with a cylinder and loft tanks, for homes that already have that set-up.

HOW IT WORKS

From first contact to aftercare

01

Tell us about the job

Answer a few questions about your home and current boiler. We only ask what changes the price.

02

Guided photos

We show you exactly what to photograph, one shot at a time: boiler, flue, pipework and gas meter.

03

Engineer review and quote

A qualified Heatmaster engineer checks everything and sends a fixed, itemised quote.

04

Installation

Book when you are ready. A Gas Safe registered engineer fits and tests the new boiler and shows you the controls.

05

Aftercare

Annual servicing helps keep the boiler safe and efficient, and is what most manufacturers ask for to keep the warranty valid.

Areas we cover

Based in Barnet, North London, working across London and Greater London.

North & Central: City of London, Westminster, Camden, Islington, Barnet, Enfield, Haringey

East: Hackney, Tower Hamlets, Newham, Waltham Forest, Redbridge, Havering, Barking and Dagenham

South: Southwark, Lambeth, Lewisham, Greenwich, Bexley, Bromley, Croydon, Sutton, Merton, Wandsworth

West: Kensington and Chelsea, Hammersmith and Fulham, Ealing, Brent, Harrow, Hillingdon, Hounslow, Richmond upon Thames, Kingston upon Thames

Accreditations

- Gas Safe registered
- RECC member

"They went above and beyond and had given a fully satisfactory experience as they were both efficient and reliable, this boiler exceeded my expectations."

SatKiran Kaur · Google review

How much does a new boiler cost?

It depends on the boiler and the job. Start the online quote and an engineer checks your answers and photos before you get a fixed, itemised price.

Will the price change after the quote?

Only if something exceptional turns up, and any change is agreed with you before more work is done.

Should I think about a heat pump instead?

Possibly. Our heat pump brochure and our guide to heat pumps vs gas boilers explain the main differences.

Engineer-checked

A qualified Heatmaster engineer reviews every job. If something is unclear, we ask rather than guess.

Explained first

You are told what is needed, and why, before any work goes ahead.

Local to London

Based in Barnet, North London, with engineers working across every London borough.
